

# THE INDUSTRY'S LEADING SELF-BOOKING SOLUTION

## WHY GETTHERE

Serving millions of business travelers in over 100 countries, GetThere is the industry's most sophisticated and reliable online travel management solution. GetThere is designed to handle the most complex travel programs while remaining simple and intuitive for both travelers and travel managers. We offer a consumer-grade user experience, fast response times, rich content and innovative features all of which are fully optimized for desktop, tablet, and mobile devices.

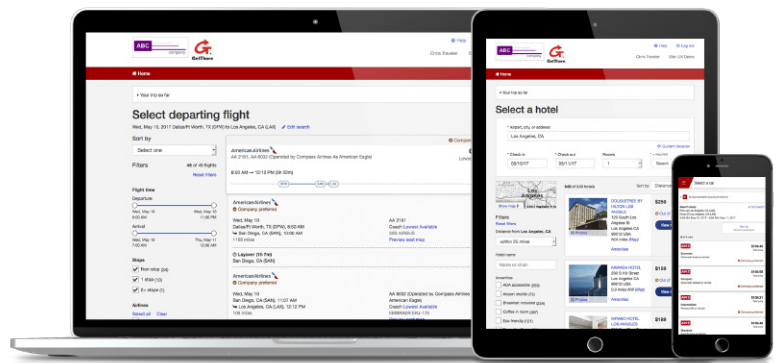

Our customers are among some of the world's most recognizable brands and include a majority of the BTN 100. They rely on us to be strategic partners that consistently delivers on maximizing cost-savings, sustaining online adoption, improving supplier and contract management, and streamlining processes.

## CONTINUOUS INNOVATION

Corporate Travel Programs demand smarter, faster, and sleeker technology; and the pace is only going to pick up. We help you stay ahead of the curve by offering a modern online booking solution that makes corporate travel a convenient and seamless experience. Our fully revamped, device-agnostic user experience is built atop the industry's most stable platform driving more than 14 million travel transactions annually with **system uptime of 99.9 percent**. Our customers average **81 percent online adoption**, well above the industry average of 58 percent.

## UNRIVALED EXPERTISE

No one does service like GetThere. We take a consultative approach to your program, anticipating needs and deliver solutions you, your travelers, and your bottom line. Lean on our team on the ground in **17 countries**, with regional leadership worldwide for local expertise and support wherever you operate globally.

With these industry-leading rates, GetThere delivers \$1.9 billion in aggregate customer savings annually.

## INFINITE CHOICE

GetThere is flexible. Build and maintain policies specifically tailored to your program with the GetThere Policy Engine. Our customers can configure their sites from 3,000 options and have the opportunity to work with any travel management company, integrate with leading expense solutions and use multiple types of upload process.

## TRAVEL POLICY

A rules-based, enterprise-level engine that gives policy administrators greater control, flexibility and configuration options to establish policy rules and requirements. With easy-to-use templates and a sophisticated decision engine behind the scenes, administrators can build complex and unique rules that suit their specific program.

## EXPENSE MANAGEMENT SOLUTIONS

GetThere offers integrated travel and expense management solutions that help corporations realize significant business benefits including process improvement, enhanced policy compliance and cost savings. GetThere works with robust expense reporting solutions so customers can derive the most value from their investment and leverage products from our leading partners globally.

- Seamless online expense reporting (automated submission, approval and audit)
- Automated cost code and policy validation, and payment to card providers and employees
- Comprehensive data analytics and reportings based on expense data

## BRANDED FARES

As a foundational part of the booking experience, GetThere offers superior shopping capabilities with GDS and non-GDS web content. We have improved the air shopping pages and optimized all pages for a consumer-grade experience on desktop, a tablet or mobile. GetThere offers branded fare air content to users on sites with Sabre configured as the primary GDS. Travelers have access to the branded fare content and can view what is bundled as part of the offering, and book the fare that aligns with the travel policy and their requirement.

Our hotel web page design allows travelers to search several options, such as leisure travel sites, and still comply with corporate policy, including preferred partners. Travelers can search and compare multiple vehicles and select roundtrip or one-way, different drop-off locations, car type and special options.

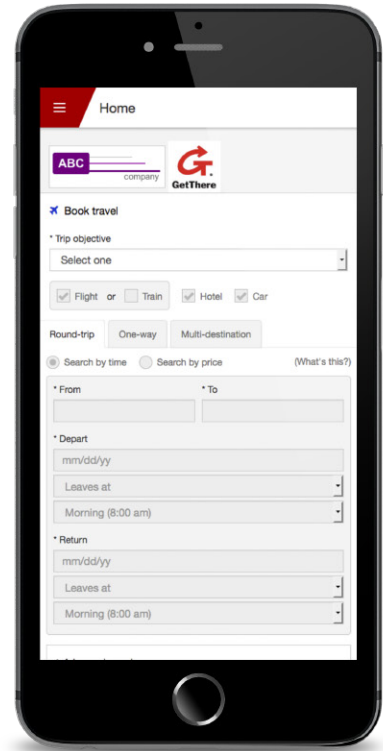

GetThere Ground allows business travelers to book and pre-pay executive car services online in real-time, including limos, executive sedans, and taxis. We also deliver valuable content to our North America and EMEA customers with content from key rail providers.

## TICKET MANAGER

Ticket Manager empowers your users to do more online. Unused Ticket Messaging alerts travelers of unused available tickets as they shop for a trip. Ticket Manager Exchange is an intelligent, fully automated solution that allows corporate travelers to exchange a ticketed reservation online.

## TRAINING AND GAMIFICATION

GetThere offers more than 20 e-tutorials designed to help travelers master various features. Additionally, GetThere offers custom tutorials and games that reinforce best practices. All training content is developed by GetThere University and intended for travelers, travel arrangers and site administrators.

GetThere partners with various expense tool providers which gives you the flexibility to choose the solution that best fits your needs.
